

# Phos Kleen

## Technical Bulletin

### Product Description

Phos Kleen contains a high level of phosphoric acid. This is a strong acid for effective descaling, but without the fumes of other mineral acids such as hydrochloric or nitric acid.

Phos Kleen is formulated with low foam detergents making it suitable for use in commercial dishwashers and CIP operations.

It is approved by AQIS as an Acid Cleaner suitable for use in all areas of meatworks.

### Applications

#### How To Use

For general descaling use at rates from 1:5 up to 1:100 in hot or cold water. Rinse well after use with potable water.

If chlorinated products are used in the plant ensure all residues are rinsed off before using Phos Kleen.

To descale a commercial dishwasher turn off feeder and empty wash tank. Refill tank and add 250ml (1 cup) Phos Kleen per 5 litres capacity. Run for 3 to 5 cycles, then empty machine. Refill with fresh water and run for 2 cycles to remove the residues. Empty and refill again. Then turn on feeder. Machine is now ready for use.

### Technical Data

Phos Kleen is a liquid containing 670g/l phosphoric acid, plus low foaming biodegradable surfactants and corrosion inhibitors.

### Pack Sizes

15L Drum	C10830
(2x5L Bottle) Carton	C11031

200L Drum

C26897

### Dominant Colour Code

### Hazard Information & Safety

Classified as Hazardous according to the criteria of the SafeWork Australia, utilising GHS. A Safety Data Sheet for this product is available at [www.dominant.com.au/sds](http://www.dominant.com.au/sds)

Danger

May be corrosive to metals.  
Causes severe skin burns and eye damage.

Poisons Schedule: S5. Caution  
Dangerous Goods: 8

### Recommended PPE

Wear: **SAFETY SHOES, OVERALLS, GLOVES, APRON, FACE SHIELD** when handling.
